MULTI-AGENT LLM

AppNova AI

ENTERPRISE CODE MODERNISATION PLATFORM

11 specialized AI agents run in parallel — architecture, security, code generation, DevOps, migration

ChaituRajSagar

analyse legacy codebases and generate full modernisation reports. 5-provider LLM cascade with 25+ API key rotation and zero-downtime fallback

AI-POWERED RFP RESPONSE GENERATOR

Retrieves past proposal language semantically from ChromaDB and drafts government bid responses in company voice — cutting RFP preparation time by ~70%. Chat interface with memory lets bid writers ask follow-up questions about specific clauses.

ReferenceFiller

DOCUMENT AUTOMATION

AUTOMATED DOCX TEMPLATE POPULATION

Upload a resume → LLM extracts structured candidate data → fills DOCX reference templates automatically via semantic field mapping. Replaced a 45-minute manual HR task with a fully automated 2-minute workflow.

SURVEILLANCE VIDEO AI SUMMARISER

Turns dashcam and bodycam footage into structured law-enforcement incident reports. Frame-by-frame ViT-GPT2 captions + Whisper audio transcript → Groq LLaMA 3 generates both a plain-English summary and a formal police narrative as structured JSON.

AI RESUME SKILL EXTRACTOR

ChaituRajSagar

Skills Projects Timeline Contact

Auto-extracts skills from DOCX/PDF resumes using local Mistral LLM and populates standardised HR skill matrix templates via RAG. Fully local — no candidate data sent to external APIs. Reduces hallucination to near zero vs baseline LLM approaches.

AUTONOMOUS AGENT · CI/CD

Gemini YouTube Bot

AUTONOMOUS AI VIDEO PUBLISHER

Zero human input — Gemini generates SEO-optimised scripts → gTTS voiceover → MoviePy video composition with dynamic TextClip overlays → YouTube Data API auto-publish. Entire pipeline runs on GitHub Actions cron schedule. No server required.

CAREER JOURNEY

Professional Timeline

ChaituRajSagar

Skills Projects Timeline Contact

AUG 2021 – PRESENT

Senior Data Engineer & AI Automation Specialist

West Advanced Technologies India Pvt. Ltd. · Hyderabad

Leading development of AppNova AI (11-agent LLM platform), GovGenie, ReferenceFiller, and four other production AI systems. Simultaneously architecting 30+ ADF pipelines for U.S. government clients with 50% faster data processing and zero data loss across all cloud migrations.

MAR 2016 – MAY 2020

Production Support & Reliability Engineer

Macray Technologies Pvt. Ltd. · Kakinada

Provided L2/L3 technical support for solar electrical systems across 15+ installations. Built operational data dashboards for fault pattern analysis. Reduced unplanned downtime by 20% and increased fleet-wide operational efficiency by 25% through data-driven component improvements.

GRADUATED MAY 2015

B.Tech — Mechanical Engineering

GIET College of Engineering · Rajahmundry

Foundation in analytical thinking, systems design, and data analysis — skills that directly underpin current work in data pipeline architecture and AI system engineering.
